# Before first use of Trackimo Guardian

Place the device in an open space that does not interfere with GSM / GPS connections for approximately 15 minutes. This process is required to properly calibrate the GPS location module.

After proper calibration, the device will be able to locate itself via GPS within seconds when entering open space.

Now you are ready to activate your device.

# How to activate Trackimo Guardian ?

First you will need to create an account on the Trackimo platform. To do this, go to the **trackimo.pl** website and then in the upper left corner of the page click the "**Register**" button. Enter the email address, set the appropriate password (**from 6 to 10 characters**), enter the phone number if you want to receive SMS notifications (**not required**). After entering all the necessary information, confirm the registration by clicking again on "**Register**".

At the e-mail address provided in the registration process you will receive a confirmation message on the Trackimo platform, to activate your account open the message and click on the "**click here**" button. Now you can log in to your Trackimo account at **trackimo.pl** by selecting "**Login**" in the top left corner.

**Note:** do not forget to check the SPAM folder if there is no message in the main mail folder.

Now you are ready to activate your device.

To do this after logging in to your Trackimo account via **trackimo.pl**, in the upper left corner click on the "**+ Add Device**" button, in the new window enter the device ID number and the last 4 digits of the IMEI number. The device ID and IMEI number can be found on the sticker on the back of the and on its packaging. When adding a device you can freely name or tag it to make it easier to recognize it on the device list, if you wont change it'll be named by default as its ID number, you can change in later in the device settings.

# Checking device status

At any time, you can check whether the device is currently on or off, to do it once press the power button **(1)**, if any of the LEDs on the device turns on, it means that it was turned on, if no LED lights up, the device is turned off .

You can also do this by sending a pre-defined message **(3)** and **(5)** or SOS notification **(6)**, after pressing the buttons **(3)**, **(4)** or **(5)** for about 3 seconds, the green LED on the device will light up **(6)** if it does not, it means that the device is currently turned off.

Frequency band:	<b>2G:</b> GSM 850/900/1800/1900 GPS: 1575.42 MHz (Rx) <b>3G:</b> GSM 850/900/1800/1900 WCDMA 850/900/1900/2100
Protection class:	<input type="checkbox"/>
Operating temperature:	from -20 to +60 °C
Wi-Fi:	Yes
Bluetooth 4.0:	Yes
Battery life:	up to 14 days
Dimensions:	4.7 x 4.1 x 1.7 cm
Weight:	24g/ <b>30g</b> (2G/ <b>3G</b> )

### Old devices cannot be disposed Of as household waste!

■ If the tracker can no longer be used, all consumers are **legally obligated to separate old devices from household waste**, e.g. by disposing of the using a municipal/district collection point. This ensures that old devices are properly recycled and avoids negative environmental impact. This is why electronic devices are labelled with the symbol shown here.

### Batteries cannot be disposed of as household waste!

As a consumer, you are legally obligated to dispose of all batteries at a municipal/district collection point or at retailer, regardless of whether or not they contain harmful substances\*, so that they can be disposed of in an environmentally friendly way.

\*labelled as: Cd=cadmium, Hg=mercury, Pb=lead

## Declaration of Conformity

Trackimo CEE sp. z.o.o. hereby declares that the GPS tracker radio equipment model TRKM019/019-3G conforms with EU Directive 2014/54/EU. The full text for the EU Declaration of Conformity can be found on the following webpage: <https://trakimo.pl/pdf/TrackimoDOC.pdf>

## Disposal

### Disposal of the packaging

Dispose of the packaging ensuring that materials are correctly separated. Dispose of cardboard and carton as waste paper and dispose of foils via the recyclable material collection service.

### Disposing of the tracker

(Applicable in the EU and other European countries with systems of separately collecting waste and recyclables).
