## Trackimo Mini

## First charging

The Trackimo Mini has a built-in battery, to charge it connect the magnetic end of the USB cable (7) to the charging port (6) on the back of the device, and plug the end of the magnetic USB cable into a USB charger or a computer that supports the USB interface. Charging will be signaled by the flashing of the red LED (3) on the front of the device when charging process is complete the red LED (3) will light up permanently.

Charge the device for 12 hours before the first use. The device should turn on automatically few minutes after starting the charging process, if it does not, disconnect the device from the charger and press and hold the on / off button (5) for approximately 3 seconds.

## Buttons

- Turning on the device  
Press and hold on/off button (5) for about 5 seconds.
- Turning off the device  
Press and hold on/off button (5) for about 5 seconds.
- SOS Notification  
To send SOS notification, press and hold the SOS button (1) for about 3 seconds/.

# Before first use of Trackimo Mini

Place the device in an open space that does not interfere with GSM / GPS connections for approximately 15 minutes. This process is required to properly calibrate the GPS location module.

After proper calibration, the device will be able to locate itself via GPS within seconds when entering open space.

Now you are ready to activate your device.

## How to activate Trackimo Mini ?

First you will need to create an account on the Trackimo platform. To do this, go to the **trackimo.pl** website and then in the upper left corner of the page click the "Register" button. Enter the email address, set the appropriate password (**from 6 to 10 characters**), enter the phone number if you want to receive SMS notifications (**not required**). After entering all the necessary information, confirm the registration by clicking again on "Register".

At the e-mail address provided in the registration process you will receive a confirmation message on the Trackimo platform, to activate your account open the message and click on the "**click here**" button. Now you can log in to your Trackimo account at **trackimo.pl** by selecting "Login" in the top left corner.

**Note:** do not forget to check the SPAM folder if there is no message in the main mail folder.

Now you are ready to activate your device.

To do this after logging in to your Trackimo account via trackimo.pl, in the upper left corner click on the "+ Add Device" button, in the new window enter the device ID number and the last 4 digits of the IMEI number. The device ID and IMEI number can be found on the sticker on the back of the device and on its packaging. When adding a device you can freely name or tag it to make it easier to recognize it on the device list, if you wont change it'll be named by default as its ID numer, you can change in later in the device settings.

Trackimo CEE sp. z.o.o. hereby declares that the GPS tracker radio equipment model TRM014 conforms with EU Directive 2014/54/EU. The full text for the EU Declaration of Conformity can be found on the following webpage:

<https://trackimo.pl/pdf/TrackimoDOC.pdf>

### Disposal

#### Disposal of the packaging

Dispose of the packaging ensuring that materials are correctly separated. Dispose of cardboard and carton as waste paper and dispose of foils via the recyclable material collection service.

#### Disposing of the tracker

(Applicable in the EU and other European countries with systems of separately collecting waste and recyclables).

### Old devices cannot be disposed Of as household waste!

If the tracker can no longer be used, all consumers are **legally obligated to separate old devices from household waste**, e.g. by disposing of the using a municipal/district collection point. This ensures that old devices are properly recycled and avoids negative environmental impact. This is why electronic devices are labelled with the symbol shown here.

### Batteries cannot be disposed of as household waste!

As a consumer, you are legally obligated to dispose of all batteries at a municipal/district collection point or at retailer, regardless of whether or not they contain harmful substances\*, so that they can be disposed of in an environmentally friendly way.

\*labelled as: Cd=cadmium, Hg=mercury, Pb=lead
